Enviro, in partnership with Global ReLeaf International, will plant a tree for every Enviro Wood or Pellet Stove purchased.

The Enviro Evolution Pellet Stove

With the Evolution, engineers at Enviro have taken the pellet stove to a new level of efficiency and reliability. They've combined the knowledge gained through years of experience with the latest in technological developments, to allow Enviro to offer special features never before available in a pellet stove.

Evolution with stainless steel sides

The Enviro Evolution - Standard Features & Specifications

Heavy duty heat exchanger

Heat output can be turned down 80%

160 in^2 (406 cm^2) glass window

Automatic 400 watt ignition system

Top & bottom nickel louvers

Cast iron top

Steel brick firebox liner

Air wash system keeps glass cleaner

Stove designed for easy maintenance and cleaning

85 lb (39 kg) hopper capacity

Rubber capped adjustable legs for leveling

Available Hearth Pad

Run Quiet System

The Evolution is designed to operate with our "Run Quiet System".

- The auger is cushioned to reduce motor noise
- The stove can operate efficiently with the convection fan turned off.
- The combustion fan is strategically positioned inside the stove to minimize its noise level. However, our engineers have also made it possible for you to install the combustion fan outside your home to further help suppress noise.

These features combine to create one of the quietest pellet stove in the world - all you should hear is the pellet fuel gently dropping into the firebox.

Tri-mode Control System -

You can operate the Enviro Evolution in three different modes -

1. Manual Mode
2. Hi/Lo Mode
3. Auto/Off Mode - the unit automatically modulates between hi and low with a time delayed auto/off function after 30 minutes on low. When the thermostat calls for heat again, the unit will automatically restart.

Input	45,000 Btu (13.19 kW)
Area Heated*	1800 ft^2 (167 m^2)
Efficiency	83%

Dimensions	Stove	Hearth Pad (Optional)
Width	22" (56 cm)	24" (61 cm)
Depth	18" (46 cm)	27" (69 cm)
Height	33.5" (85 cm)	1" (25 mm)

Pedestal ash pan system

Control Panel

85 lb (39kg) large capacity hopper

Hidden door handle maintains the clean body lines
